Materiały metodyczne dla instruktora

Część III

Lekcje 31 - 45

Tłumaczenie i opracowanie techniczne: Jacek Pawlicki

Mińsk – Szczecin 2019-2020

Materiałów z książki można używać do woli. Na zdrowie!

Wydawcy, czyli Polski Związek Warcabowy, Jacek Pawlicki i firma PCBEST, nie wyrażają jednak zgody na ich wykorzystanie w celach komercyjnych, oraz na publikowanie w formie elektronicznej bez podania źródła (www.daminator.eu) oraz logotypów wydawców.

Od autora

Materiały zawarte w „45 lekcjach” (klasyczne warszawy) przeznaczone są do nauki dzieci w wieku 6-9 lat w szkołach czy klubach w ciągu trzech lat. Po 15 lekcji na każdy rok.

Pomysł polega na tym by każdy dorosły, który zna zasady warszawów klasycznych, mógł prowadzić zajęcia w grupie lub indywidualnie.

Również rodzice mogą samodzielnie uczyć swoje dzieci. Ale i same dzieci, w wieku 7-9 lat, mogą samodzielnie pracować z tymi materiałami.

Lekcje są ułożone na zasadzie tworzenia zbilansowanej wiedzy u uczącego się – jednocześnie wykładane są wszystkie stadia partii: debiut, gra środkowa (pozycyjna gra, kombinacje, poświęcenia, groźby) i końcówki.

Przykłady gry pozycyjnej zostały dobrane z zasadą nauczania roli centralnych kamieni (dobre/złe centrum).

Zakłada się, że w przyszłości uczniowie będą grać w warszawy stopolowe.

Materiał każdej lekcji jest bardzo obfity (podawanych czasów nie należy traktować dosłownie), można część zostawić jako zadanie domowe.

1. Gra pozycyjna. Blokada skrzydła.

Ważną metodą walki z centrum przeciwnika jest blokada jego prawego skrzydła.

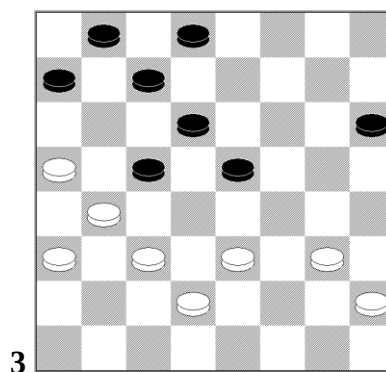

Na diagramie pięć czarnych kamieni jest zablokowanych czterema białymi. Białe wygrywają.

Blokada skrzydła – to bardzo złożony plan, związany z grą przeciwko centrum przeciwnika. Wymaga bezbłędnej gry.

1. Gra pozycyjna. Blokada skrzydła.

Blokada skrzydła związana jest z grą na okrążenie centrum przeciwnika, a to jest bardzo trudny plan. W przypadku błędu, okrążone centrum przeciwnika może zamienić się w ogromną siłę.
